## DETAILED ACTION

### *Claim Rejections - 35 USC § 101*

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims recite mathematical algorithm (probability distribution) and abstract ideas without any limitation to practical application that produces concrete and tangible results.

2. Applicant's arguments filed 1/27/05 have been fully considered but they are not persuasive. Applicant argues at page 7, Section B that the claimed invention are directed to pattern recognition system and classifying a plurality of items. However, the items in claim 1 are purely mathematical in nature and classifying could be mental and it is not clear how it is connected to the mathematical items in claim 1. Both classifying and pattern recognition system does not show their effect on or relationships to the mathematical steps in the claims.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2121

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
